

**Young Investigators/Trainees Symposium:
‘Lessons learnt during my career – How to find diamonds’**

Organised by the IPITA Young Investigator Committee

Tuesday 20th June 2017
Mathematical Institute, University of Oxford

Schedule

14:00	Welcome and introduction	IPITA YIC, chaired by Sarah Cross	Room L3
14.10	Discussion group 1	Mentors	Rooms L4, L5, L6
14.50	Discussion group 2	Mentors	Rooms L4, L5, L6
15.30	Tea break		
15.45	Discussion group 3	Mentors	Rooms L4, L5, L6
16.25	Discussion group 4	Mentors	Rooms L4, L5, L6
17.05	Wrap up	Mentors and IPITA YIC	Room L3
17.15	Symposium finishes		
17.30	Drinks reception		

Following the welcome in room L3, mentors will go to their respective tables - each mentor will be allocated a table in either room L4, L5 or L6 (see below) and will be provided with a large monitor to connect to their laptops for their presentations.

Participants have previously selected their preferred discussion topics and each will be given a personalized list of which tables they will attend for each of the 4 timetabled discussion groups (this will be emailed to participants prior to the congress and will also be provided as a print out on the day). Participants will rotate around the mentor tables in 40 minute blocks.

The symposium will end with a short wrap-up in L3 with each of the mentors saying a few words about their discussion groups.

There will be opportunity for continued discussion and networking during the symposium drinks reception, which immediately follows the symposium.
